REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art does not disclose a susceptor connection system and method of the type claimed in which a shoe is used to bias edge portions of first and second susceptors to place the first and second susceptors into electrical contact, the shoe including coolant circulation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fischer et al is cited as showing an edge cooling element for use with a single susceptor.

Matsen et al (5,793,024) is cited as showing a first and second susceptor biased together at their edges without the use of a shoe.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Teresa J. Walberg whose telephone number is 571-272-4790. The examiner can normally be reached on M-F 9:00 - 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robin Evans can be reached on 571-272-4777. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
